To whom it may concern;

As nearly life long residents of Dayton Kentucky we do appose the construction of a personal communications telecommunications facility in our neighborhood, or any residential area of our town. Would you personally want your grandchildren living within 100-500 foot radius of this facility? I seriously doubt it, that's what we residents near 819-823 Vine Street face. We were told by our City Council, we, like they, have NO choice in this matter the tower is going in. Is this true? Is this the Democratic way of making choices and decisions about how we live? This is still America we believe. Doesn't a majority have a voice? Be assured there are

other areas less objectionable,
try to be fair. It would have
made a lot more sense
to us citizens, that our concerns
were important if we would
have been notified of your
plans for this densely populated
area before your spending
\$50,000.00 on a site in our
neighborhood.

Personally it seems quite
backwards.

We await your reply.
